## ENGINEERING STUDENT

Computer engineering student, confident around people, with 5 years' content writing experience. Started on Quora, gaining 7000+ answer views. Recently completed a paid freelance project for Thingstodo, learning SEO. Interested in Quantum computing, I completed an IIT Bombay workshop, learning applications and processes. A business enthusiast, I developed communication, public speaking, pitching, leadership, writing, and problem-solving.

## EXPERIENCE

### ***Content Writer, Thingstodo***

***July 2024 - September 2024***

- Wrote blogs for official business website which are published online.
- Search engine optimization was necessary for making the content SEO friendly.
- Communicated with lead writers to understand their needs and learned about copyrights.
- Published blogs which reached more than 100 people.

### ***Documentation Executive, ACM***

***December 2023 - Present***

- Wrote reports for various events that took place in college.
- Learned to work with a team in a collaborative space and created documents.
- Analyzed the events for understanding what is necessary for event summary.
- Worked with professional writers to learn new things while creating content.

### ***Writer, Quora***

***December 2023 - Present***

- Wrote answers to random questions published online which reached 7000+ views.
- Learned which topics get more attention and helped people with their queries.
- Explored how people created their profiles to build a brand.
- Understood monetization and how it works on this particular platform.

### ***Core Member, E-Cell (Google Developers Group)***

***November 2024 - Present***

- Marketed our club its acquiring new students into the group.
